Mr. T. J. Ryan
Vice President
Reilly Tar & Chemical Corporation
11 South Meridian Street
Indianapolis, Indiana 46204

December 22, 1970

Dear Mr. Ryan:

Please refer to your letter of November 11, 1970 addressed to our treasurer concerning cancellation of your company's Lease No. 92358 (NP) at Quendall, Washington.

A personal inspection of the leased property by our forces indicates that the loading platform and ramp are no longer in existence, except for a few upright piling. There is also a considerable amount of planks across the tracks extending to both sides and also loading and steam pipes in the ground under the tracks protruding from the ground on the northeasterly side, which had previously been used for loading creosote into tank cars.

It will be necessary that you arrange to remove this piling, planks and pipes in order to comply with paragraph 10 of the lease. Will you please have this done as soon as possible and advise when completed in order that another inspection may be made.

Your cooperation in bringing this matter to a conclusion will be appreciated.

Very truly yours,

B. J. Stasson
